Investment Thesis

Tenant-occupied brick bungalow with immediate income, detached garage, two full baths and a full basement. Reportedly remodeled in 2020 and functional; finishes are dated and there is no central cooling. Best use is a buy-and-hold or light value-add — at this assignment price the all-in basis sits well below ARV, leaving real equity or a strong day-one cash-flow play.

The Numbers

Metric	Value

Exit Strategies

- BUY-AND-HOLD (best fit): immediate \$1,500/mo rent, path to \$1,800 after refresh — ~8.7% in-place cap at the \$114,000 price, ~9.1% stabilized on all-in.
- LIGHT VALUE-ADD: cosmetic refresh, raise rents, refinance or resell to a retail buyer.
- Note: not underwritten for a deep retail flip given the 960 sf above-grade footprint.
